Name: _____

Insect Thinking Questions

1. A caterpillar doesn't have six legs or three body parts. Is it an insect? Explain your answer.

Adult insects have six legs and three body parts. A caterpillar is not an adult. It is a butterfly in the larval stage.

2. Insects don't have bones inside their bodies. How do their bodies keep their shape?

An insect has a hard exoskeleton on the outside of its body.

A cartoon illustration of a superhero character with brown hair, wearing a red suit with a blue cape and a blue chest emblem. He is flying through the air, holding a green gift box with a red ribbon. The background is white.
