

Freckle Juice

Math Challenge

Reread the following passage from the story.

Andrew didn't like the idea of paying Sharon for anything. And fifty cents was a lot of money. It was five whole weeks of allowance! But he decided that if Sharon's recipe didn't work he'd ask for his money back. It was easy.

**Can you figure out how much allowance Andrew gets each week?
Draw a picture or write a math problem to show your work.**

Each week Andrew gets _____ allowance.

Now draw fifty cents using fewest possible coins.

ANSWER KEY

Freckle Juice Math Challenge

Reread the following passage from the story.

Andrew didn't like the idea of paying Sharon for anything. And fifty cents was a lot of money. It was five whole weeks of allowance! But he decided that if Sharon's recipe didn't work he'd ask for his money back. It was easy.

Can you figure out how much allowance Andrew gets each week?
Draw a picture or write a math problem to show your work.

$$\underline{10\text{¢} + 10\text{¢} + 10\text{¢} + 10\text{¢} + 10\text{¢} = 50\text{¢}}$$
