Name: _____

ELA Buzz

Many things are scary if you are a mouse. Owls are some of the most scary.

An owl can fly without making a sound. Its head can turn far to the left and right. It can look in a full circle—without moving its body! Its big eyes are strong. They are 10 to 100 times stronger than human eyes. They are great for spotting food at night. That's when the owl hunts. It catches its food with its big talons, or claws.

If you aren't a mouse, don't worry. Owls like to stay away from humans and big animals.
