1. Equivalent Expressions

Write an equivalent expression using the distributive property.

2. Equivalent Expressions

Which two expressions are equivalent?

5. Equivalent Expressions

Which three expressions are equivalent?

6. Equivalent Expressions

Use the distributive property to write an equivalent expression.

9. Equivalent Expressions

Which two expressions are equivalent?

10. Equivalent Expressions

Which two expressions are equivalent to $9x + 21$?

13. Equivalent Expressions

Which three expressions are equivalent to $14x + 2y - 3$?

14. Equivalent Expressions

Write an equivalent expression.

d. $3y + 6x + 9$

17. Equivalent Expressions

Combine like terms to simplify the expression.

18. Equivalent Expressions

Which three expressions are equivalent to $24x + 6y$?

21. Equivalent Expressions

Combine like terms to simplify the expression.

d. $9x - 12$

22. Equivalent Expressions

Which of the following expressions is equivalent to $x + x + y + y + y + y + 4$?

25. Equivalent Expressions

Combine like terms to simplify the expression.

d. $9(3 + 10x + 2)$

26. Equivalent Expressions

Write an equivalent expression using the distributive property.

29. Equivalent Expressions

Write an equivalent expression using the distributive property.

30. Equivalent Expressions

Which three expressions are equivalent?

Name: _____

Task Cards: Equivalent Expressions

1. _____ **11.** _____ **21.** _____

10. _____ **20.** _____ **30.** _____

ANSWER KEY **Note:** Some answers may vary.

Task Cards: Equivalent Expressions

1. $32x + 56$

11. $7(3x - 4)$

21. $-6x + 16$

10. a and d

20. $2(4x + 3y)$

30. a, b, and d

Task Cards: Equivalent Expressions

This file contains 30 equivalent expressions task cards.

There are countless ways to use task cards in your classroom.
Here are a few ideas:

7. Extra Help
Have a parent, friend, or volunteer sit with individual students who need extra help. They can practice by solving the problems on the task cards together.
