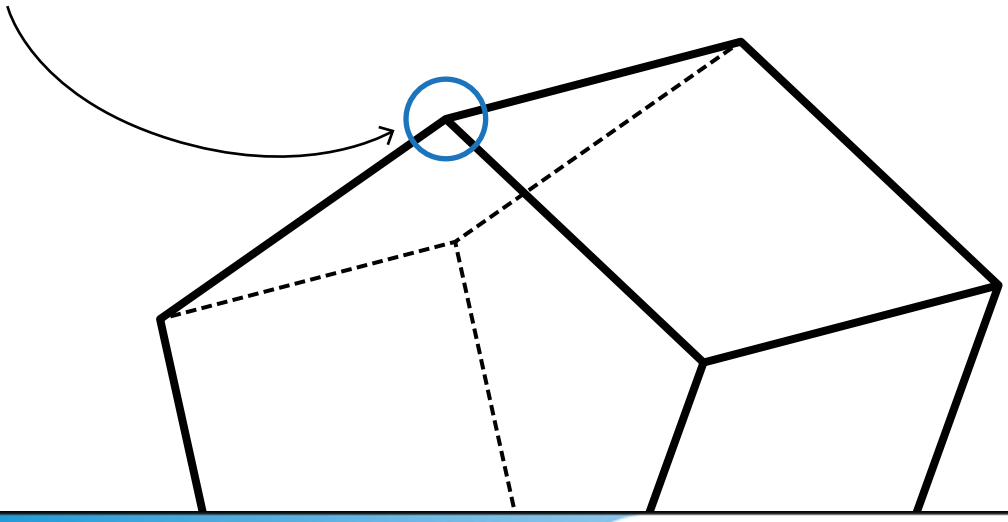
Name: _____

Vertices

Vertices are the points where the edges meet.

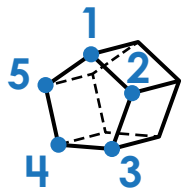


Note:
The singular of vertices is vertex.

1 2 3 4 5 6 7 8 9 10

Tips for finding number of vertices

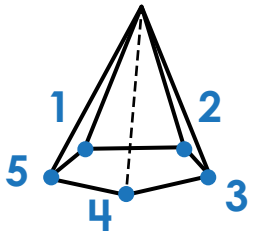
If a prism:

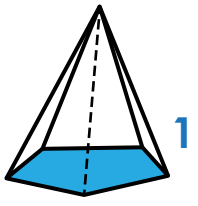


number of points of the base × multipy by 2

5 × 2 = 10

If a pyramid:





number of points of the base + *add number of base*

5 + 1 = 6
