Multiplication Fluency Game

Materials:

- One die
- Printed game board with multiplication facts
- Answer page
- Scrap paper for keeping score (or they can write on back of answer page)

Preparation:

Print the game board and attach both halves together with glue.

Each pair of students receives one game board, an answer page, and one die.

How to play:

- If the player quickly and accurately answers all math facts, he/she scores 7 points. For each incorrect answer, one point is deducted. So, if the player only answers 5 correctly, he/she scores 5 points,
- The players then switch roles. Player 1 checks answers as player 2 rolls and reads math facts aloud.
- The player with the most points after 10 rounds wins.

Management suggestions:

- You may want to limit the amount of time students have to answer all facts in a column. For example, you might give them 30 seconds per column.

Multiplication Fluency Game

$6 \times 7 = 42$

$12 \times 2 = 24$

$8 \times 3 = 24$

$6 \times 5 = 30$

$8 \times 10 = 80$

$11 \times 11 = 121$

$5 \times 8 = 40$

$2 \times 9 = 18$

$12 \times 6 = 72$

$7 \times 8 = 56$

$5 \times 5 = 25$

$3 \times 7 = 21$

$12 \times 7 = 84$

$6 \times 11 = 66$

$8 \times 9 = 72$

$0 \times 1 = 0$

$7 \times 7 = 49$

$1 \times 4 = 4$
